

# JEU DES BONBONS

## Duo - 7 couleurs

### Préparation :

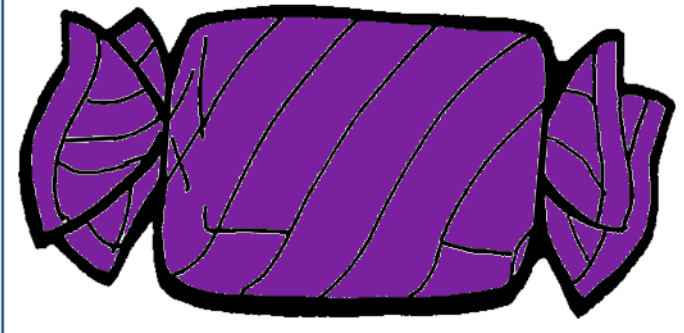

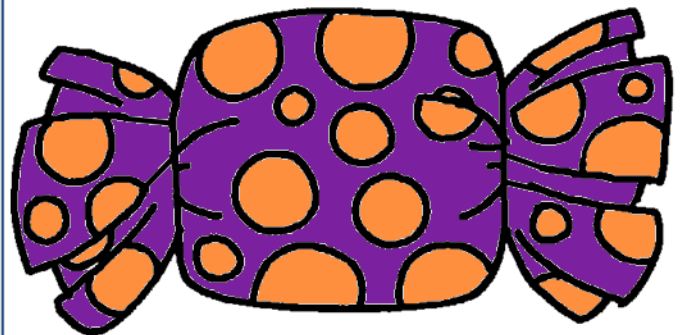

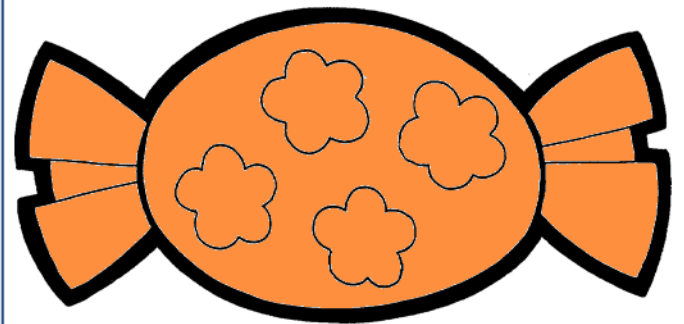

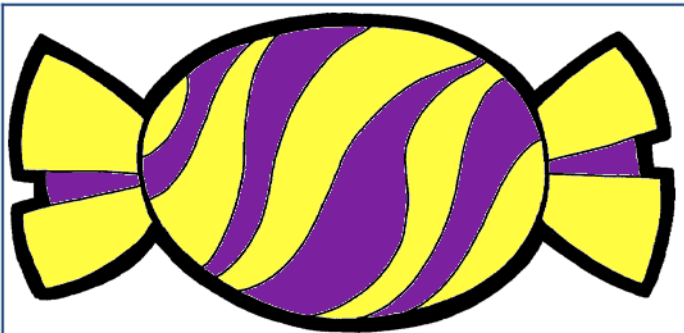

- Imprimer, plastifier et découper les bonbons.
- Découper, construire les dés (ou mettre des gommettes adhésives de couleur sur de vrais dés)

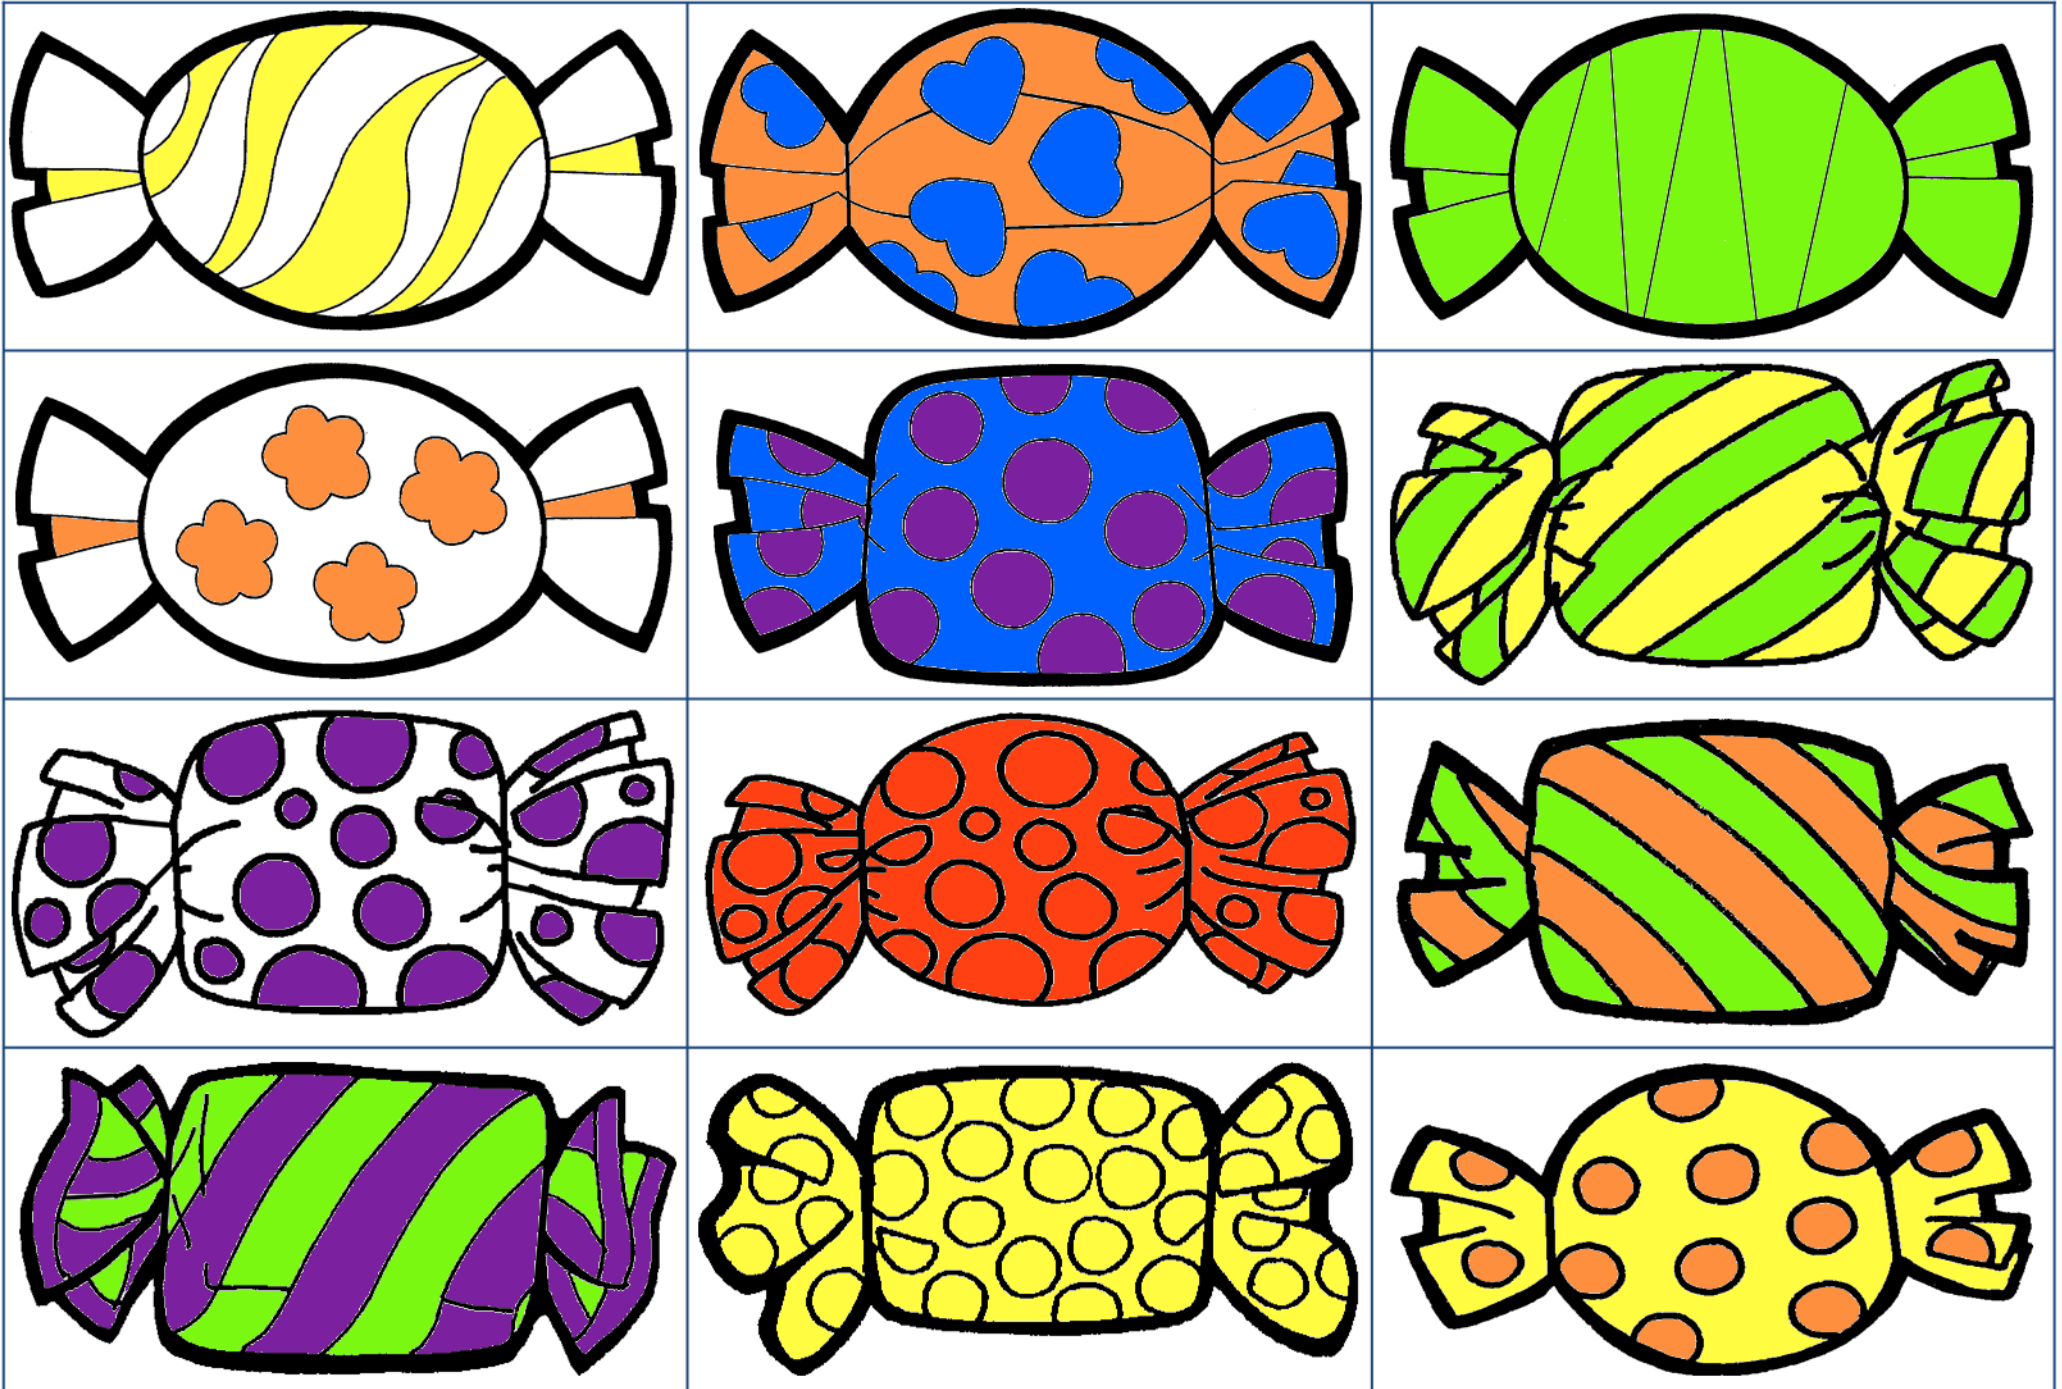

### Jeu :

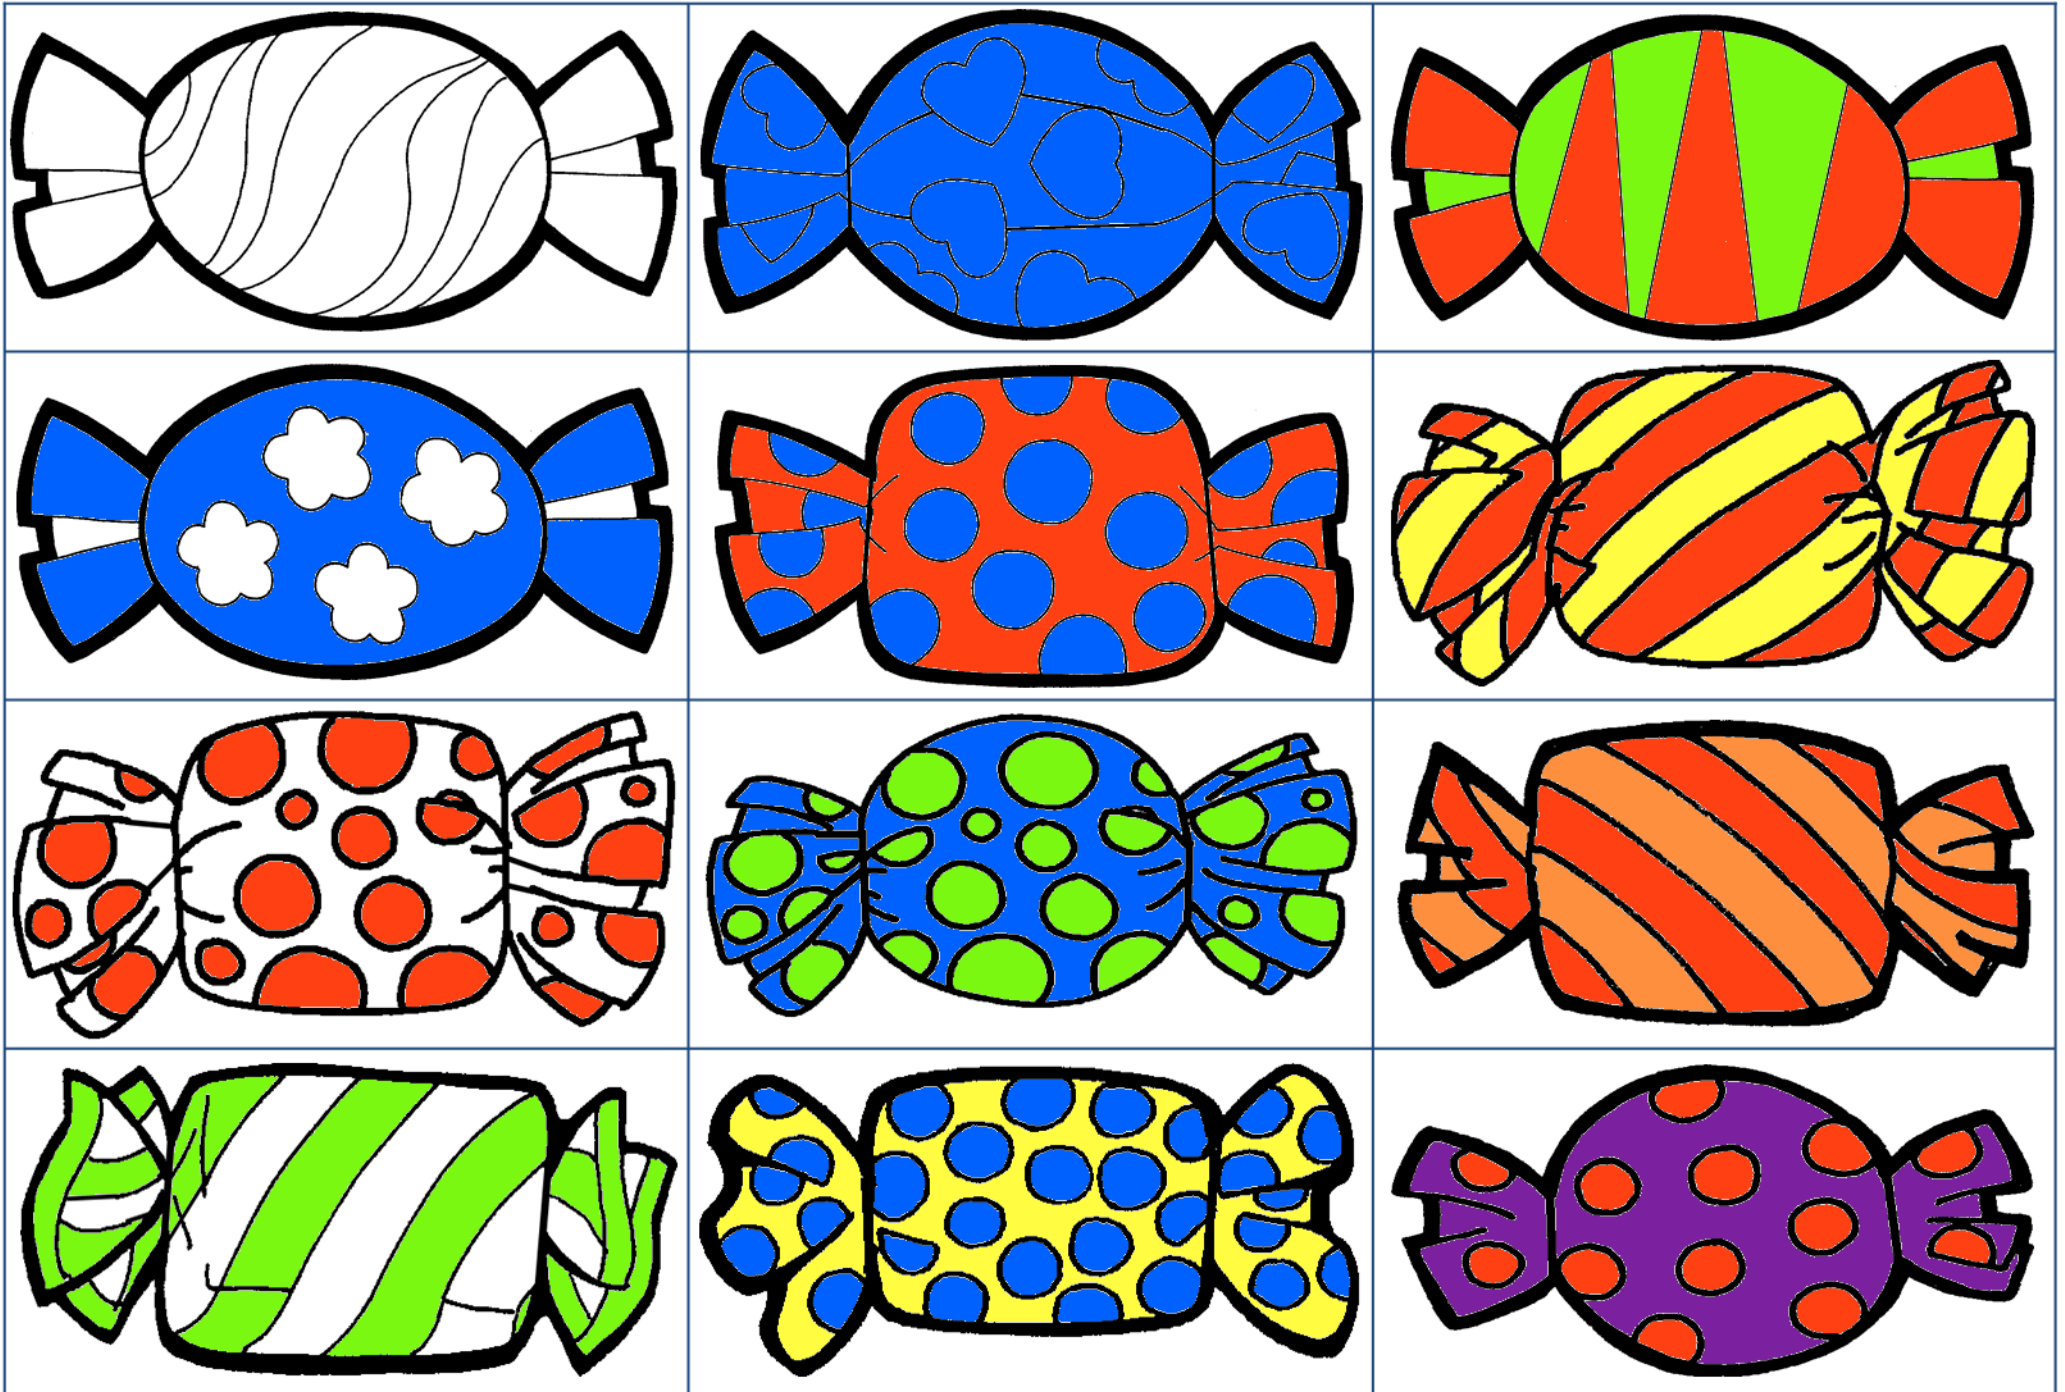

- Les bonbons sont placés, dessin vers le haut, au milieu de la table.
- Chaque joueur, à tour de rôle, lance les deux dés, et prend le bonbon des deux couleurs indiquées. Si le bonbon a déjà été pris, il passe son tour.
- Le but du jeu est de manger tous les bonbons (qu'il n'en reste plus aucun au centre de la table)

**Variante 1** : il est possible d'utiliser trois dés, l'enfant choisit alors deux des trois couleurs indiquées par les dés. Cela peut permettre de terminer un peu plus vite une partie qui n'en finit pas.

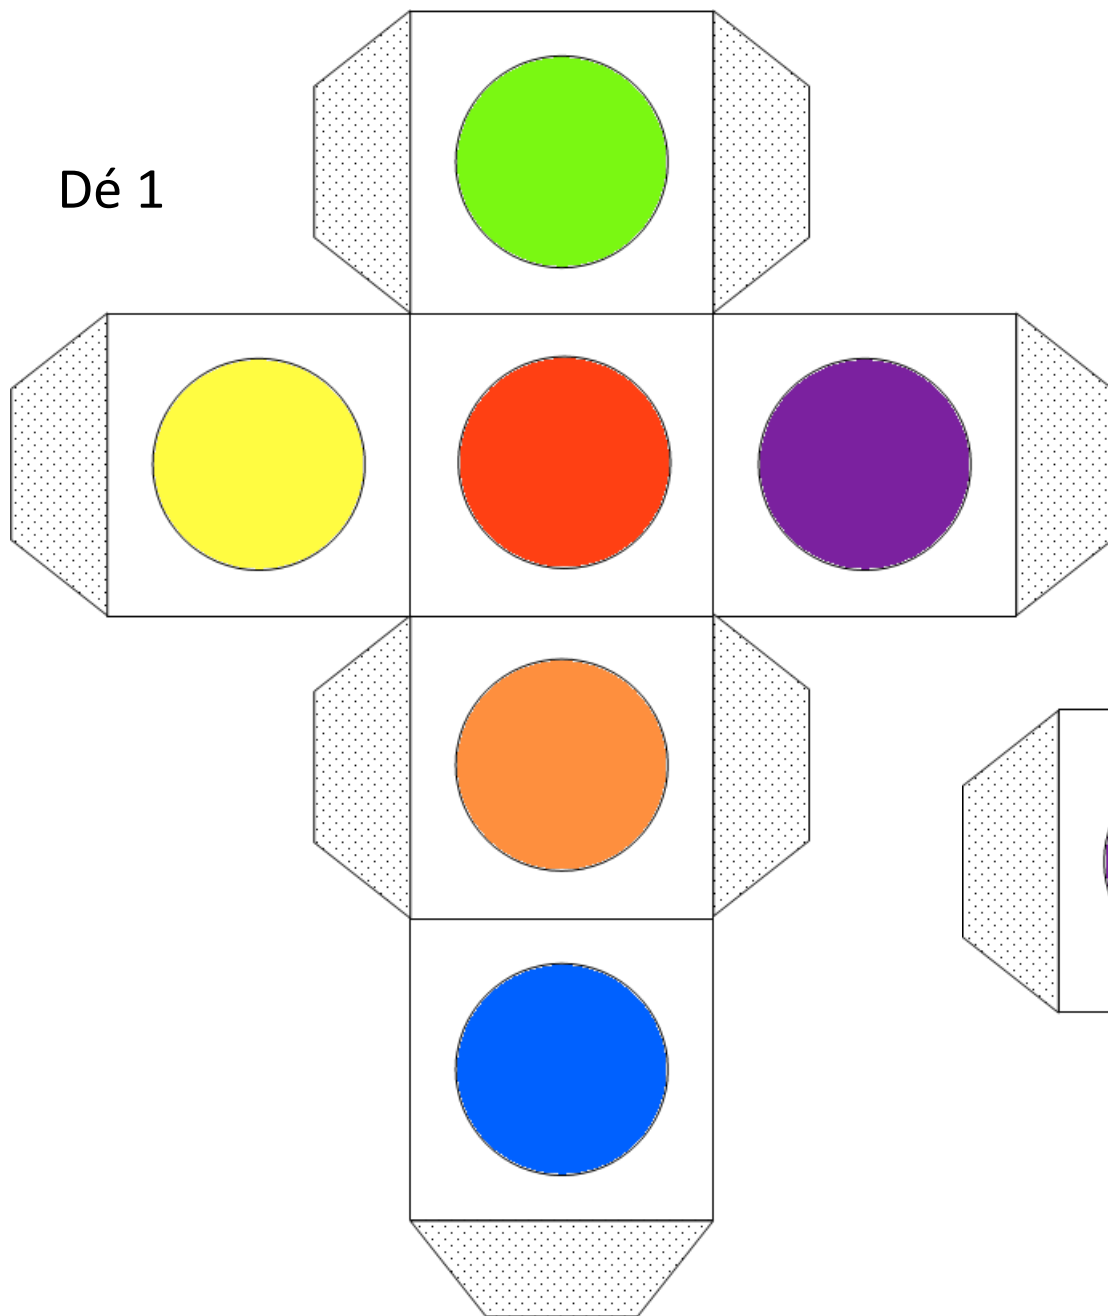

**Variante 2** : il est possible d'utiliser une pioche de cartes, face cachée, l'enfant prend deux cartes, et le bonbon correspondant aux couleurs tirées.
